Research Professional - Governance & Public Policy

Adaptable ICT professional with a strong foundation in network management, systems support, and data-driven solutions. Experienced in deploying and maintaining ICT tools that enhance organizational efficiency, particularly in structured, policy-oriented environments. Proficient in tools such as Microsoft Power BI, SPSS, and database systems used for research and governance analysis. Successfully led a web-based car parking management system project, improving efficiency and accountability through real-time monitoring. Known for a proactive, analytical approach and a keen interest in supporting evidence-based decision-making in governance and public policy.

EDUCATION BACKGROUND

Diploma in information communication technology, The Eldoret national polytechnic, Kenya ***CREDIT Sept 2023-march 2025***

- ***Thesis:*** *Design and Implementation of a Web-Based Car Parking Management System Using Modern Web Technologies.*

Certificate in information communication technology, The Eldoret national polytechnic, Kenya ***CREDIT Feb2021-nov 2022***

Kenya Certificate of Secondary Education, St peters Mumias boys High School, Kenya, ***Feb 2015-Nov 2019***

CORE SKILLS

- ***Network Configuration and Troubleshooting***: hands-on experience in setting up and configuring computer networks (LAN/WAN), including routers and switches, and troubleshooting connectivity issues or IP conflicts.
- ***ICT Systems Maintenance and Support***: Managing and maintaining ICT infrastructure, including software installation, system updates, hardware checks, and providing technical support to users.
- ***Proficiency with ICT Tools and Software*:** I'm proficient in a wide range of ICT applications and software, including operating systems, database tools, productivity suites (like MS Office), and development frameworks like Django.

Analytical and Communication Skills: Use technical knowledge to troubleshoot system issues, improve workflows, and aid decision-making. Translate complex data into clear actions, helping teams adopt solutions that boost efficiency and reduce time spent on tasks.

RESEARCH & WORK EXPERIENCE

ICT Attachment Intern | Kenya Airports Authority, Eldoret Kenya ***10th January-11th April,2022***

- Assisted in network setup, system maintenance, and troubleshooting of both hardware and software issues.
- Supported ICT infrastructure, including cloud computing solutions and system updates.
- Provided customer and technical support, including managing airport systems and updating flight information databases.
- Communicated flight details to clients and ensured timely data entry for operational efficiency.

ICT Attachment Intern | Kenya School of Government, Mombasa Kenya ***12th June -24th august, 2023***

- Supported system maintenance, user support, and technical troubleshooting within the ICT team.
- Assisted in network configuration, software installation, and resolving hardware/software issues.
- Contributed to database management, web development tasks, and cloud-based solutions
